

PHILIPS

Ultrasound

Compact 5000 series

**It's not just compact.
It's compact without compromise.**

Philips Compact Ultrasound System 5000 series for general imaging

Philips performance and portability like never before

You need quick, high-quality answers, every single time. Now you can bring the value of exceptional ultrasound to more patients in your facility, more often. The Compact 5000 series gives you superb image quality, flexibility and standardized workflow that were made for the increasing challenges of healthcare.

Familiar touchscreen, user interface and high-performance transducers

shared across the Compact 5000 series, EPIQ Elite and Affiniti systems

Sealed control panel offers enhanced cleanability

Easy connectivity using WiFi to share images and reports

Real-time collaboration with colleagues

through Philips Collaboration Live* so clinicians can securely talk, text, screen-share and video-stream directly from the system

Award-winning compact design

for easy mobility that fits tight spaces with ease for bedside scanning

reddot award
product design

Long battery life

for up to 2.5 hours of scanning with extended batteries

* Contract required. Collaboration Live is designed to enable clinical collaboration and consultation on the Philips Compact Ultrasound System 5000 series, but is not intended for diagnostic use on that series. Collaboration Live is intended for clinical collaboration, consultation and remote diagnostic use on Philips EPIQ and Affiniti ultrasound systems, release 9.0 or higher.

Right performance, first scan

93% of users agree that the system performed to the user's expectations for a mobile system*

90% of users agree that the common UI and workflow shared with EPIQ Elite and Affiniti may help reduce user training*

Success across all of your patient types, imaging departments, patient bedside or remote locations.

The right diagnosis, right away

Longitudinal liver with inferior vena cava, hepatic veins and abdominal aorta

Abnormal supraspinatus tendon with small partial thickness tears

Transverse liver with hepatic veins

Longitudinal thyroid lobe with nodule

Breast tissue with multiple fibroadenomas

Longitudinal common carotid artery

Cardiac apical four chamber view with mitral inflow

Cardiac transesophageal with mitral regurgitation

* Philips CX50 system used for comparison.
External evaluation at two sites with a total of 29 patient exams.

Premium is now compact

The Compact 5000 series shares imaging architecture and transducers across our premium platforms. This means performance that allows you to see important structures in crisp detail, from deep abdominal views to superficial scans to cardiac imaging, and from small pediatric patients to technically challenging adult body types.
