SUCCEED.**

EN Snare[®]

Endovascular Snare System

ONE Snare[®]

Endovascular Snare System

EN Snare®

Endovascular Snare System

The only delivery catheter with **reinforced strain-resistant hub and peel-away insertion tool** on the market.

EN Snare® loop tips stay as much as **58% closer** to vessel walls than the competition.¹

Embedded Radiopaque Marker Band

identifies the snare delivery catheter's precise location under imaging

Interlaced Nitinol Loops

designed to resist prolapse and improve capture by allowing the snare to move as a single-unit through the vessel

Improved Vessel Navigation

facilitated by 15 degree curved tip on 6F and 7F snare delivery catheters

Enhanced Visualization

provided by platinum strands incorporated into the loops

High Performance Snare Delivery Catheter

designed for strength and to minimize the potential for kinking and buckling

REINFORCED CATHETER HUB

NEW flexible, reinforced, strain relief hub designed to reduce buckling.

ONE Snare®
2.4X more buckle force¹

EN Snare®
1.9X more buckle force²

ONE Snare®

Endovascular Snare System

ONE Snare® delivery catheter provides **2.4X greater buckling resistance force** than the competition.¹

Designed for Better Foreign Body Capture with 90 degree angle loop

Excellent Support from Nitinol core wire that provides shape-memory

Kink Resistant Catheter designed to improve strength and ensure procedural success

Nitinol & Gold-Plated Tungsten Loop retains snare's circular shape to support capture of foreign bodies, while allowing superior visibility.

High Visibility under fluoroscopy due to gold-plated tungsten loop

UNIQUE peel-away insertion tool for quick and efficient snare loading with EN Snare® and ONE Snare.®

ONE Snare
Peel-Away insertion tool

Competitor's non-peelable introducer
