

HEALTHPRO HOSPITAL MANAGEMENT SYSTEM OVERVIEW

1

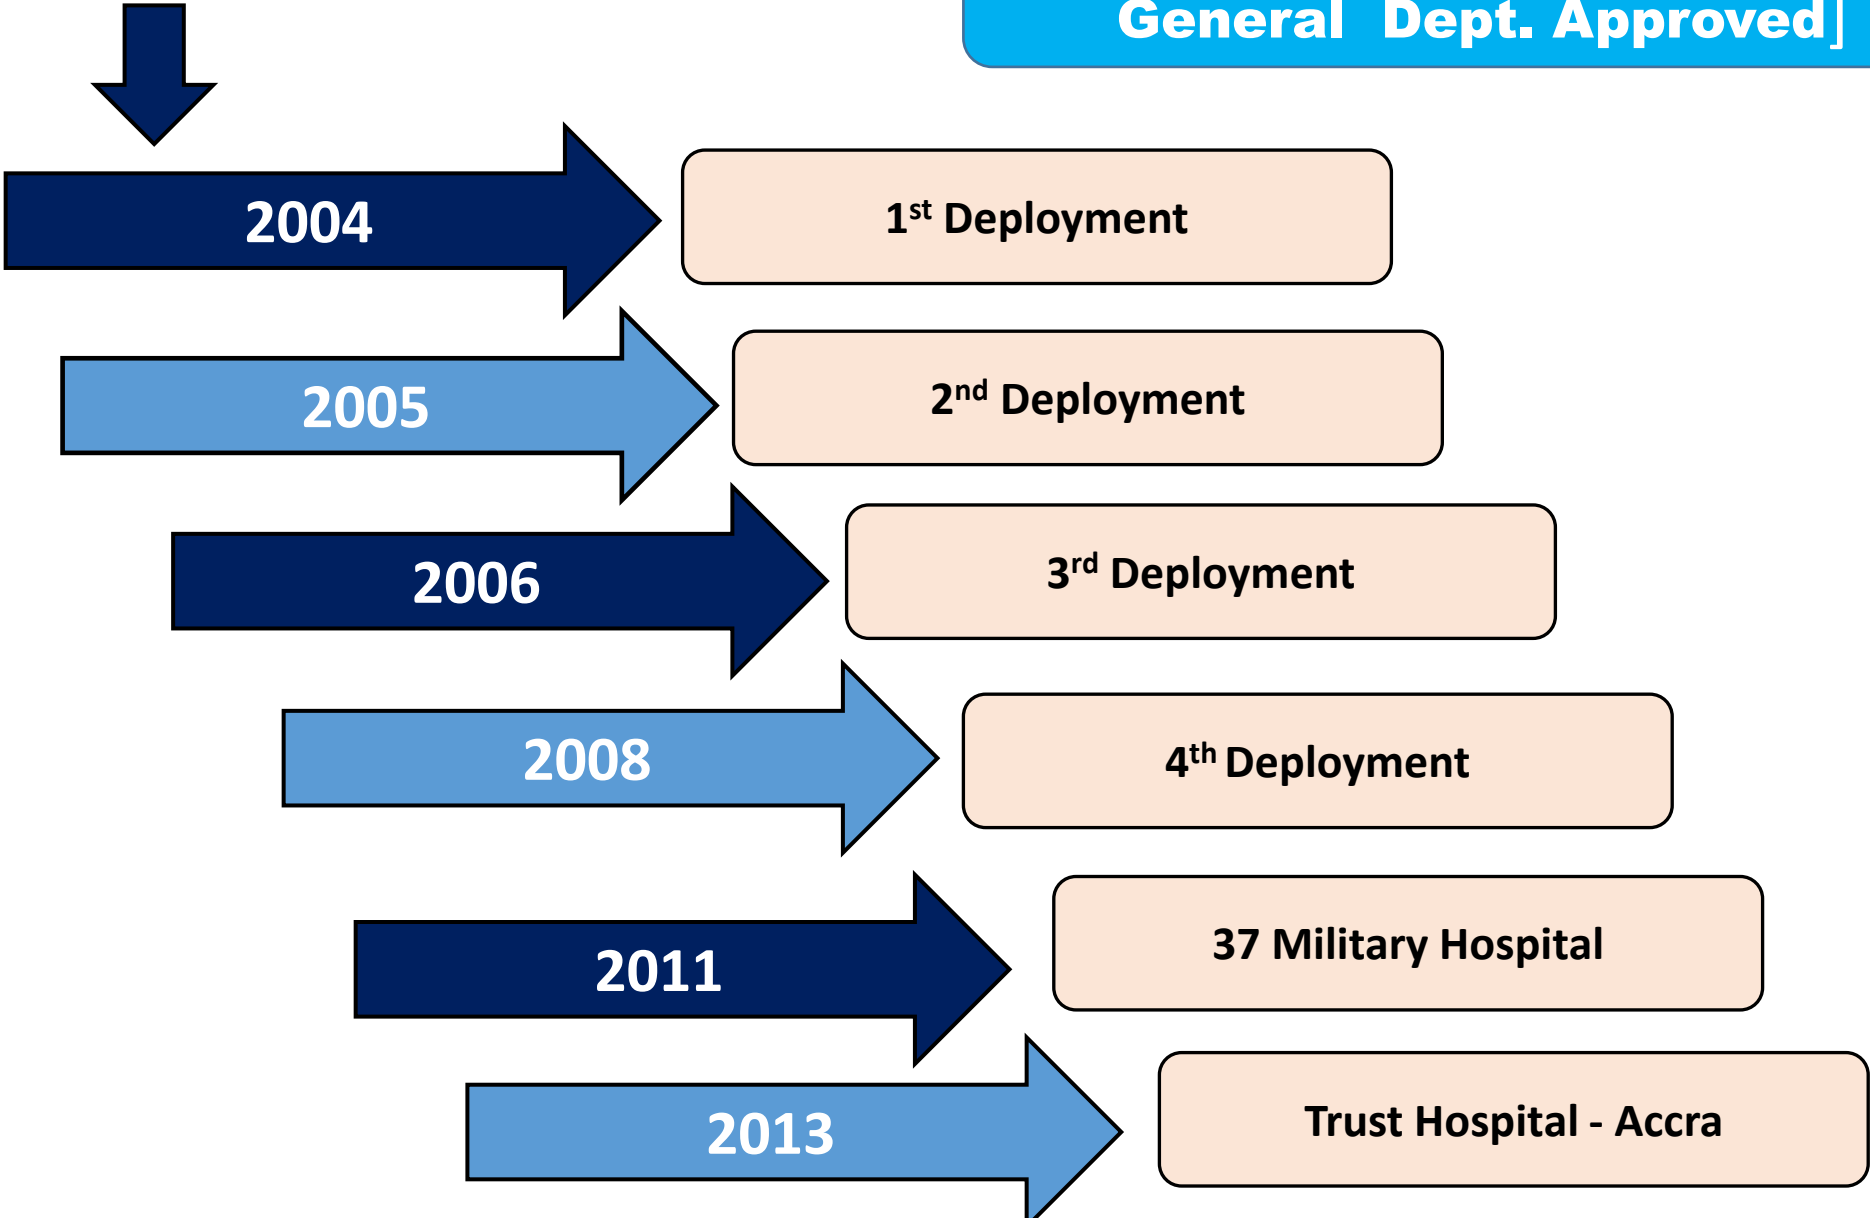

- HealthPro is a customizable, comprehensive, and integrated Hospital Management System which started its deployment in the year 2004 to help Healthcare Facilities manage all hospital operations.

2

- HealthPro offers useful dashboards and reports, through which caregivers and doctors can have quick and simple access to the test results and records of patients. It increases the competency of hospitals legitimately and also helps to improve quality delivery of service.

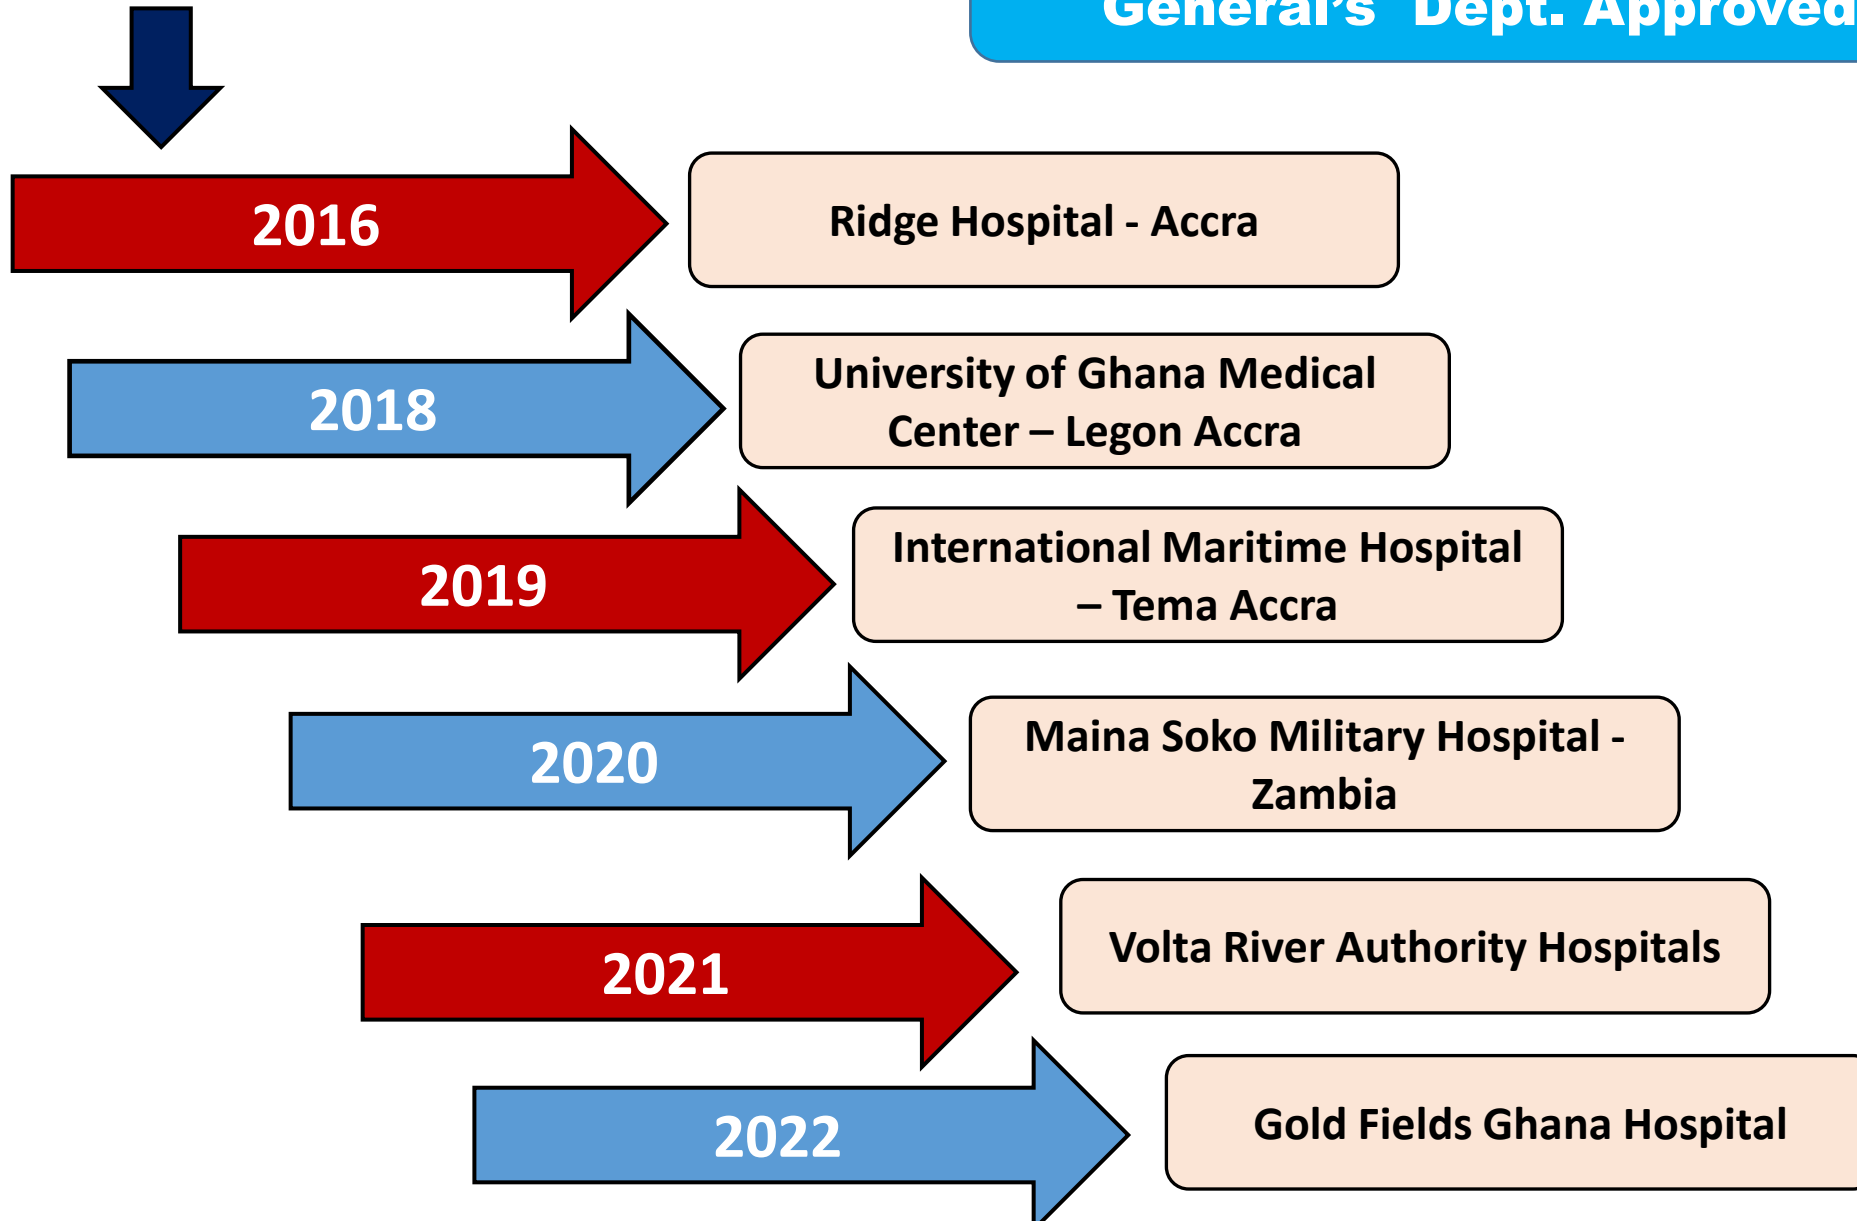

HealthPro Key Deployments

**[Controller And Accountant
General Dept. Approved]**

By: Application Administrator Edit Pages 1 Pages

The diagram consists of two large, curved lines that meet at the top and bottom, forming a wide, open shape. In the center of this shape, there are two small, vertically oriented rectangular boxes, one above the other. Below the upper box is an ampersand (&) symbol. The entire drawing is done in blue ink on a white background with horizontal lines.

Customization

HealthPro supports a wide range of customization when it has to do with modifying the system to conform to the routine task or way of work of every different Facility

Integration

HealthPro is able to easily integrate with other systems to simplify the flow of routine processes and also eliminate all forms of manual interventions

Paperless

HealthPro provides the user with wide range of features, functionalities and automations to considerably eliminate a high degree of manual work and subsequently eliminate human errors thereby also saving time

Training

Users of HealthPro are provided with effective training as part of the deployment schedule and post deployment periodic trainings as and when it is requested by the Facility

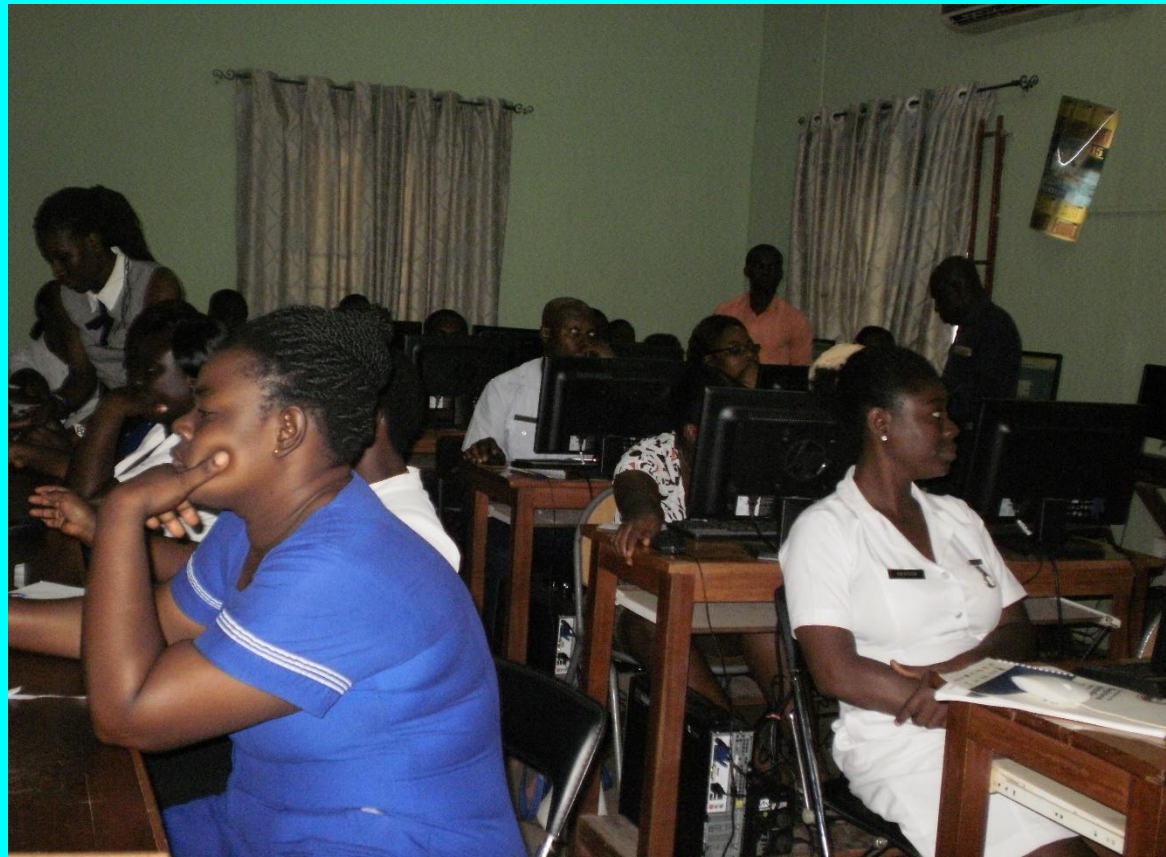

Reporting

With HealthPro, Reports are easily customized for every Unit depending on their respective operations. HealthPro reports gives a true reflection of the situation on the ground and consequently aids in decision making by management

Support

The Institution has a support Center that provides a 24 hour support for HealthPro users both remotely and physically to resolve all incidents and also close knowledge gaps that might emanate.

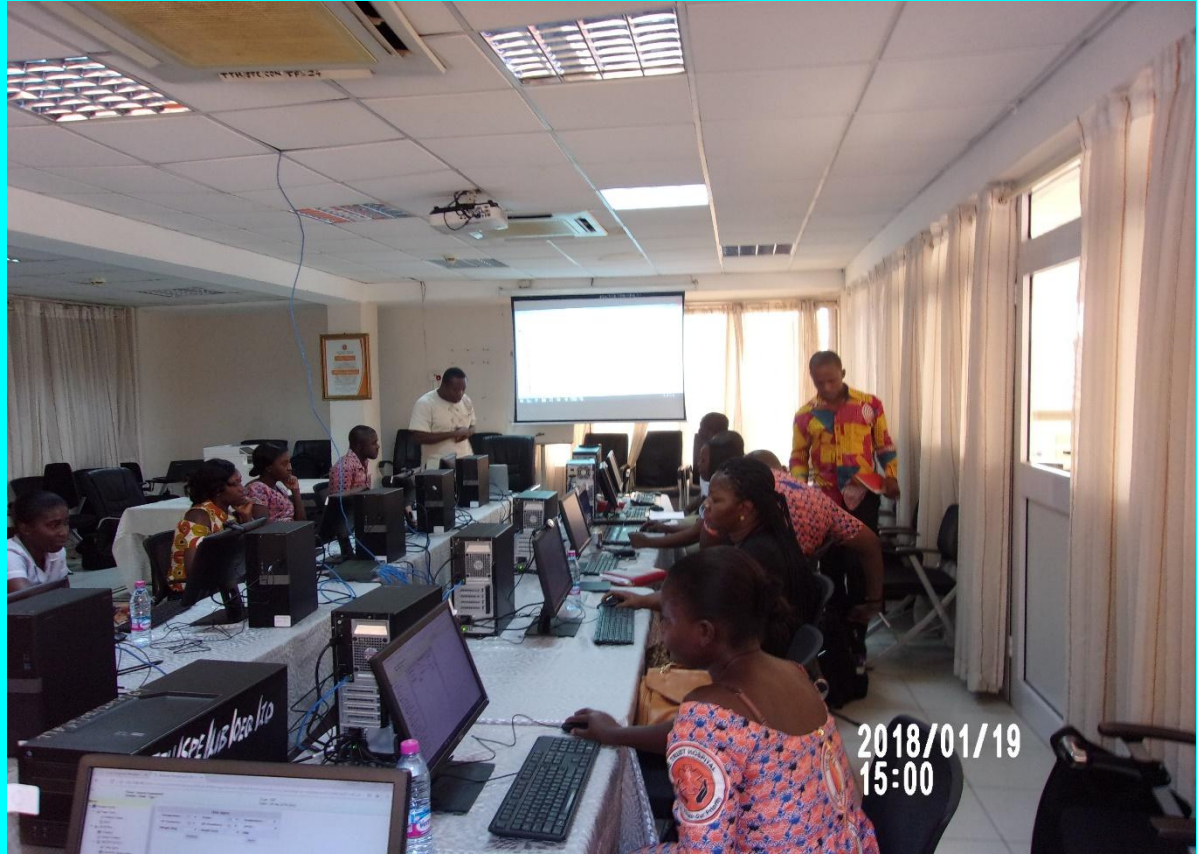

Training at 37 Military Hospital

Training and stakeholder Engagement at Ridge Hospital

Training at Trust Hospital

Training at UGMC (University of Ghana Medical Center)

THANK YOU
